## NARS 2021: A Year of Resilience

When the NARS planning committee sat down to ponder the theme of NARS 2021, we knew we had to recognize the industry's ability to overcome.

With this in mind, we are proud to announce that the theme of NARS 2021 is **Resilience: Rising Above and Committed to Building a Stronger Industry.**

There is no question that 2020 was a trying year for everyone in our industry and beyond. The recovery industry has faced trials and tribulations that without strength and perseverance, we wouldn't have overcome. The new year brings a new chance to come together to build an industry that can withstand ALL obstacles and show true resilience.

We are looking forward to seeing every resilient member of the recovery industry at NARS 2021 on October 7th and 8th.
